Yuvrajsinh Jadeja

Senior Product Designer | B2B SaaS & Enterprise Products

jadejayuvrajsinh10@gmail.com | +91 97271 85923 | Ahmedabad, India (Open to Remote & Relocation)

LinkedIn Profile | Portfolio Website

PROFILE SUMMARY

Product Designer with 7+ years designing end-to-end web and mobile experiences across consumer internet, fintech, and enterprise SaaS. Proven B2C range - from a 1M+ user consumer travel marketplace to mobile-first fintech products - alongside deep enterprise UX work in compliance and cybersecurity. Currently Founding Product Designer at ComplyStream, building AI-native compliance workflows from 0→1. Hands-on with AI-assisted design tooling (Figma, Claude, ChatGPT) and design systems that scale from zero to full engineering adoption.

PROFESSIONAL EXPERIENCE

ComplyStream December 2025 – May 2026
Founding Product Designer London, UK (Remote)

- Leading end-to-end customer journey design from 0 to 1 - research, wireframes, prototypes, and delivery across the full compliance platform.
- Designed an AI agent-driven workbook covering four compliance jobs: Document Collection & Validation, Director & UBO Identity Verification, Entity Risk Screening & Assessment, and Risk Analysis - replacing fragmented multi-tool workflows with one unified surface.
- Built and maintained the design system and component library, ensuring consistency across all product surfaces.
- Collaborating directly with Compliance Analysts, MLROs, CEO, CTO, and engineers to translate regulatory requirements into user-centred design solutions.
- Driving toward Series A by ensuring design quality, consistency, and user-centred decision making across product strategy.
- Operating as the design voice in a fast-paced, high-stakes domain - combining design and product strategy responsibilities as the sole designer.

Crest Data Systems December 2022 – November 2025
Senior Product Designer Ahmedabad, India

Contracted as a senior UX consultant across enterprise and consumer clients spanning cybersecurity, compliance, and consumer group trips.

PartyPlan

- Sole designer for Party Plan, a group travel marketplace serving 1M+ users (4.2★ rating) across web and native iOS/Android apps - owned the end-to-end journey from trip discovery through group coordination to day-of logistics.

ServiceNow

- Collaborated within the SecOps Vulnerability Response team to design a unified CISO dashboard, transforming complex security data from four disconnected reporting systems into a single executive-level view aligned with user needs and business goals.

Netskope

- Led the design of the Polaris platform from scratch, establishing a scalable design system and component library. Defined design principles, interaction patterns, and visual consistency that became the foundation for the entire platform.

LinkedIn

- Designed and delivered the CISO dashboard for LinkedIn's in-house security team. Simplified technical security metrics into intuitive, actionable insights, enabling executives to quickly assess and respond to organisational risks.

o2h Technology January 2019 – November 2022
UI/UX & Digital Designer Ahmedabad, India

Joined as a software developer and transitioned to design driven by personal interest. Worked across fast-paced service industry, technology, green innovation, fintech, and health-tech startups.

StampFree

- Designed the complete mobile application and web admin/merchant portal for StampFree's AI-powered, label-free digital postage platform - end-to-end from onboarding through daily operational use. Contributed to the product's success in securing £1.08m in seed funding.

Trovr

- Designed three distinct product surfaces for the Trovr recycling platform - a merchant experience (web + mobile app), an admin console (web), and a consumer-facing app (web + mobile) - driving a seamless recycling journey that has processed 423,600 containers to date.

Yntro

- Took a single-sentence founder brief and built a complete 0⟶1 SaaS product from scratch - naming, brand identity, wordmark, colour system, and full product design covering introduction composing, per-recipient status tracking, and connection history. Delivered a VC-pitch-ready product and deck.

SKILLS

Core Design: User Experience Design, Product Design, Interaction Design, Design Systems, Wireframing, Prototyping, Usability Testing, Visual Design, Brand & Identity

Process: Design Thinking, User Research, Design Strategy, Accessibility Design, Agile / Scrum, Cross-functional Collaboration
